Dane

Can you send the email list of master trainers plus Isidi, AI, Randy and FMs

Thanks

R

Hi All,

Hope you are having a great day.

We still have not received the list of trainers who will be doing the beta testing.

Without that information, we will not be able to start the beta test

Please send that to us soon

Thanks

Hi All,

Thanks for taking the time and meeting with us on Tuesday. We are really looking forward to present the app(s) to your team and get their feedback.

We need to add the following information before releasing the App on Monday

1. List of trainers who will be testing the app(s). Please send us the information in the Excel format sent earlier
2. The exact location (address) of the gym where the beta testing is happening. (This will ensure that Geo-location features work as envisaged)
3. UDID's of the users who will be using the iPhone app

The above information has to be programmed into the code, we would appreciate it if you could send them at the earliest.

Please feel free to contact me if you need more information.

Have a great day
